About Us

Our Services

Overview

AVISTA Group ("AVISTA") is a leading professional valuation and corporate advisory firm. We are experienced in performing a full range of Valuation Advisory, Risk Management Advisory, Environmental, Social and Governance (ESG) Advisory, Corporate Advisory and Property Consultancy services for various purposes.

With a strong presence in the Asia-Pacific region, we have offices in Hong Kong, Shanghai, Beijing and Shenzhen. Through effective utilization of our local and international networks and the synergies among our service lines, we aim at providing high-quality services to clients and assisting clients in formulating strategies to maximize their value under complex business circumstances.

Our People

The AVISTA professional team comprises more than 100 professional consultants, each with different areas of expertise and detailed familiarity of financial reporting standards and regulatory standards. Our team of experienced professionals come from globally-renowned valuation firms, consulting firms and international accounting firms with global qualifications such as CFA, CPA, CPV, FRM, MRICS, FCCA, and so on.

Our Work

We have been engaged by 800+ listed companies and IPO applicants on Hong Kong and overseas stock exchanges, serving key industry players in various sectors, ranging from traditional sectors such as consumer, manufacturing and financial services to newly-fledged industries such as e-commerce, fintech and AI technology. We have extensive project experience in the Asia-Pacific Region and have handled outbound projects in 30 countries.

Business Valuation Advisory

AVISTA provides various types of professional valuation services to our clients, which suits different purposes of the companies, including M&A transactions, Financial Reporting, Stock Exchange Listing Rules Compliance, Tax Planning and Internal Reference.

PURCHASE PRICE ALLOCATION ("PPA") VALUATION

In every merger and acquisition ("M&A") transaction, acquirers are often required to measure the fair values of the tangible and intangible assets as of the completion date of transaction in accordance with relevant accounting standards such as HKFRS/IFRS 3(R) and US GAAP ASC 805. Commonly identifiable intangible assets include Trademark and Brand Name, Customer Relationship, Technology, In-progress R&D, Patent, Intellectual Property, Copyright, Franchise Agreement, Favorable Lease, Non-compete Agreement, etc. Our finance and accounting expertise, together with our extensive industry knowledge and practical valuation skills, is capable of performing such valuations for financial reporting or internal reference purposes.

SHARE-BASED PAYMENT VALUATION

Companies may adopt various forms of share-based payments, such as Employee Stock Options, Restricted Stock Units, Stock Appreciation Rights, etc., as a form of incentives nowadays. AVISTA is capable to assist companies in meeting the requirements of relevant accounting standards such as HKFRS/IFRS 2 and US GAAP ASC 718 in relation to share-based payment transactions to ensure that the impact of these transactions is correctly reflected in financial statements. Even more, we can also perform scenario analysis to assist companies in assessing the impacts of these share-based payments on the financial statements in advance for determining the appropriate structures, terms and vesting conditions that meet your financial budget.

GOODWILL AND ASSETS IMPAIRMENT ASSESSMENT

The value of a company's asset, both tangible and intangible, could be impacted by external economic conditions and volatile financial markets. As a result, companies are required to measure and report the corresponding losses arisen from impaired assets according to relevant accounting standard such as HKAS/IAS 36 and US GAAP ASC 350. AVISTA offers valuation and accounting expertise to conduct impairment testing on goodwill, tangible assets and definite/indefinite-lived intangible assets.

FINANCIAL INSTRUMENTS VALUATION

For most of the transactions nowadays, cash is no longer the only item to be paid as consideration. It is becoming more popular to structure a transaction with the involvement of various types of financial instruments, such as Convertible Bonds and Notes, Preference Shares, Warrants, Forwards, etc. Hence, an independent valuation on such items may be required for financial reporting of both public and private companies, according to relevant accounting standards such as HKFRS/IFRS 2 and US GAAP ASC 718 and HKFRS/IFRS 9 and US GAAP ASC 326. The structures of financial instruments are getting more complex with the various clauses embedded in the terms and agreements. Based on our knowledge on different valuation methodologies, AVISTA can customize the most appropriate valuation model to capture the terms and clauses of the particular instruments precisely.

VENTURE CAPITAL & PRIVATE EQUITY PORTFOLIO VALUATION

Venture capital and private equity managers are often required to measure the fair values of investments in the funds as part of the reporting process to investors. The International Private Equity and Venture Capital ("IPEV") Guidelines is a well-recognized valuation guideline that set out a globally-acceptable framework for fair value measurement that is in compliance with both IFRS and US GAAP. With our knowledge on IPEV Guidelines and professional finance and accounting expertise, we are capable to assist management in carrying out the valuations in accordance with the reporting standards and make better economic decisions.

VALUATION FOR CIRCULAR DISCLOSURE

M&A is one of the common ways for companies to achieve additional growth. Whether the M&A adds value to the firm depends fundamentally on a proper evaluation of the transactions. Listed companies are required to disclose details of the transaction, in particular the basis upon which the consideration was determined, if it is classified as a share transaction, disclosable transaction, major transaction, very substantial disposal/acquisition or reverse takeover as soon as the transaction has been finalized under Chapter 14 of the Main Board Listing Rules of the Stock Exchange of Hong Kong ("HKEx") and Chapter 19 of the GEM Listing Rules of HKEx.

We have extensive experience in providing services for U.S. and H.K. listed companies, pre-IPO candidates and small and medium sized enterprises. Regardless of the complexity of the deal structure, our dedicated team will assist you in selecting the most appropriate business valuation techniques to smoothen the work progress.

EXPECTED CREDIT LOSSES ("ECL") ASSESSMENT

With HKFRS/IFRS 9 *Financial Instruments* being effective for annual periods beginning on or after 1 January 2018, companies are required to assess the ECL for their financial assets. HKFRS/IFRS 9 introduces the expected credit loss model, specifying the measurement of the ECL should reflect a probability-weighted outcome, account for the time value of money and incorporate forward-looking information. AVISTA is capable to assist management to better prepare and understand the impact of the new standard and reduce implementation costs and compliance risk.

BIOLOGICAL ASSET VALUATION

According to the requirements under HKAS/IAS 41 and US GAAP ASC 905 *Agriculture*, companies are required to assess the fair value less costs to sell of the biological assets and the agriculture produce. AVISTA has a dedicated team of professionals with the assistance of industry experts focusing on various types of biological assets, to provide valuation services in relation to the valuation of biological assets for financial reporting purpose.

Fixed Assets Valuation Advisory

VALUATION FOR PUBLIC DISCLOSURES – LISTING / CIRCULARS

According to the requirements under Chapter 5 of the Main Board and Chapter 8 of the GEM Board Listing Rules of the HKEx, the applicants or issuers are required to disclose valuations of and information on property interests on the listing document or circular under certain circumstances. Based on our extensive experience in providing property valuation services for the purposes of listing and circular, our qualified surveyors are capable to assist companies to conduct property valuation for the purpose of public disclosure.

PRE-DEAL VALUATION ADVISORY

Due to the heightening regulatory improvement and corporate governance, regulatory bodies require that all transactions must comply with the requirements under the listing rules, which may involve with the opinion of an independent qualified valuer for listed companies. AVISTA is capable to carry out professional, prescient and independent analysis and valuation services. Unbiased conclusion will be provided to assist the company in investment decision making and smoothen the work progress.

VALUATION FOR FINANCIAL REPORTING

According to the requirements under HKAS/IAS 16 and US GAAP ASC 360, HKAS/IAS 36 and US GAAP ASC 350, HKAS/IAS 40 and US GAAP ASC 973, and HKFRS/IFRS 3 (R) and US GAAP ASC 805, an independent valuation of property interests may be required for financial reporting of both public and private companies. AVISTA has a dedicated team of professionals including qualified surveyors, CPA and CFA to assist company to cater for the duties in financial reporting.

MORTGAGE VALUATION

AVISTA has introduced a self-developed user-friendly online platform "Mortgage Valuation Platform (MVP)". MVP is a dedicated 24/7 interactive online platform for mortgage financial institutions to process all mortgage-related documentation. It enhances the compliance level of our clients without any additional IT cost.

HOTEL / RESORT VALUATION

The hotel market has evolved unprecedentedly over time. AVISTA is capable to deliver a consolidated valuation on hotel assets to cater for the prevalence of newly-developed hotel categories such as onsen hotel (Hot spring hotel), resort and Bed & Breakfast (B&B).

Risk Management Advisory

We provides various risk advisory services from internal control review, risk management, to corporate governance services to cater for our clients’ needs in complying with the latest requirements under the revised Corporate Governance Code and Corporate Governance Report (“Code”) of the HKEx.

RISK CONSULTING FOR INITIAL PUBLIC OFFERING (“IPO”)

Launching an IPO project is a complex, time-consuming and rigorous process. The better prepared the company is, the more efficient and less costly the process can be. Undertaking the responsibility to make declaration set out in the Rules Governing the Listing of Securities, the sponsor is required to carry out due diligence in respect of the listing applicant’s accounting and management systems, including the assessment on the internal controls systems and procedures. AVISTA can provide a Pre-IPO Internal Control Review service for potential IPO candidates so as to assist our client and its sponsor to assess the sufficiency of the finance, system and internal controls procedures of the company. Our experienced professional team has handled numerous pre-IPO projects to provide professional advice on establishment and/or enhancement of internal control system suitable for listed company.

RISK MANAGEMENT AND INTERNAL CONTROL REVIEW

According to the Code, the board is responsible for evaluating and determining the nature and extent of the risks it is willing to take in achieving the listed company’s strategic objectives, and ensuring that the listed company establishes and maintains sound, appropriate and effective risk management and internal controls systems to safeguard shareholders’ investment and the company’s assets. The board should oversee management in the design, implementation and monitoring of the risk management and internal control systems, and management should provide a confirmation to the board on the effectiveness of these systems. AVISTA provides professional advice on the design, efficiency and effectiveness of the risk management and internal control system in order to help the company to establish and maintain a sound and effective risk management system. Our review is carried out in accordance with the “Internal Control Integrated Framework” issued by the Committee of Sponsoring Organizations of the Treadway Commission.

DUE DILIGENCE

Depending on situations and jurisdictions, due diligence review could either be a legal standard of care or voluntary investigation. It is typically used in M&A. Either the buyers or sellers could initial due diligence reviews, since both parties have the obligation to assure the legitimacy of the transactions. AVISTA provides different types of due diligence services, ranging from operational due diligence, financial due diligence, environmental due diligence to compliance due diligence.

CORPORATE GOVERNANCE REVIEW

The Code set out the principles of good governance, and two levels of recommendations: (a) code provisions; and (b) recommended best practices. The listed companies must meet certain requirements to comply with the Code or disclose considered reasons for its deviation. To assist companies to maintain sound corporate governance, in order to sustain and enhance their competitiveness and corporate image over the market, AVISTA could provide CG Code Compliance Review and CG Report Disclosure Review.

CRISIS MANAGEMENT

Crisis management is the process by which an organization manages and deals with a disruptive and unexpected event that threatens to harm the organization or its stakeholders. AVISTA aims to prepare companies for unanticipated crisis, develop re-engineering plan for enhanced operational efficiency in addition to the basis of internal control review and risk assessment with continued evaluation. To allow corporates to navigate through unexpected crisis, AVISTA helps develop a comprehensive crisis management plan enabling them to Prepare for, Respond to, Recover from, and be Resilient to crisis.

CORPORATE TRANSACTION ADVISORY

Throughout the M&A process, AVISTA professional team can identify significant issues and provide clients with customized, practical and effective advice on management strategies by performing due diligence on a different aspect of the target company. Subsequently, we could assist the company to formulate an effective solution to facilitate the integration and interoperability between the acquired business and the group to maintain the consistency of operations and leadership.

Environment, Social and Governance (ESG) Advisory

Starting from 2016, Hong Kong listed companies are required to disclose ESG information on an annual basis in compliance with the ESG Reporting Guide set out in Appendix 27 to the Main Board Listing Rules or Appendix 20 of GEM Listing Rules. We assist listed companies to sort out the difficulties in meeting the disclosure requirements, including technical issues derived from huge and complicated organizational structures.

ESG GOVERNANCE ADVISORY

Sustainability governance helps a company implement sustainability strategy across the business, manage goal-setting and reporting processes, strengthen relationships with external stakeholders, and ensure overall accountability. How and where sustainability fits into the overall corporate structure can be very revealing of a company's direction and priorities. As there is no cookie-cutter structure that can be applied, AVISTA assists your company to tailor its approach for what makes the most sense given its business model, structure, resources, and level of sustainability integration into the business. We could also assist company in forming formal ESG Board Committee, cross-functional executive Sustainability Committee, sustainability teams and sustainability supporting structures, as well as preparing any necessary documents.

SUSTAINABILITY STRATEGY DEVELOPMENT

Understanding how sustainability impacts company's business model, value chain, and products and services become a must to prosper in a competitive and dynamic business landscape. AVISTA assists company to establish a sustainability plan based on company's goals, risks and opportunities, external and internal pressures, and resources. This roadmap provides company with clear priorities and directions. AVISTA focuses on how sustainability can bring company a competitive advantage beyond basic compliance and regulatory issues. We look at the entire spectrum of sustainability issues that are important in the industry the company belongs to and important in company's business model.

ESG REPORTING

ESG Report is a very important transparency and communication tool that captures and discloses the organization's entire sustainability strategy, from development and implementation to integration and assessment. AVISTA has extensive experience in developing sustainability reporting in a wide range of sectors with a proven track record. We plan, develop and compile a complete report including providing custom-designed data templates, statistical analysis and preparation of charts and tables. We also offer a special reporting package for newly listed companies to help them start their reporting journey in a simple and easy manner.

ESG DATA MANAGEMENT

ESG data is a comprehensive set of data points that covers a variety of environmental, social and governance issues. AVISTA self-developed cloud-based platform—AVISTA iESGweb helps companies efficiently manage sustainability performance data across companies and supply chains. It enables company to collect, monitor and report on ESG data in a transparent, consistent and comparative manner.

STAKEHOLDER ENGAGEMENT AND MATERIALITY ASSESSMENT

Materiality is the driver through which companies can select issues to be included in ESG reports favouring the expectations of stakeholders. The statistical analysis highlights the importance of industry, HKEx ESG Reporting Guide application and stakeholder engagement in the reporting process, in particular in the materiality analysis, to achieve a high level of materiality application and good report quality. AVISTA is capable to help company clearly present the materiality disclosures in the ESG report. We also help company ensure disclosures that are related to materiality are clearly labelled and referenced.

Corporate Advisory

AVISTA supports clients in the midst of changes, whether they are regulatory updates or further business development. We are committed to helping our clients shape their business strategies and implement their corporate values.

STRATEGIC VALUE ANALYSIS

Strategic value analysis is a useful tool for identifying and evaluating the relationship between business strategy, value drivers and competitive advantages of your company. AVISTA dedicated professionals have in-depth industry expertise that could assist you in formulating strategic bases and key assumptions, which can assist you in turning your strategic plan into a concrete forecast in financial terms; identifying possible acquisitions that suit your strategic value; and guiding decision on business improvement and operational efficiency by visualizing and quantifying the potential financial impacts.

FORMULATION OF BUSINESS PLAN

Knowing the market, making correct decision and taking the right reaction are fundamentals of running a successful business. Given the more challenging business environment nowadays, it requires ever higher standard of corporate management to surpass your competitors in the market. AVISTA dedicated

professionals have in-depth and yet innovative expertise to assist the management in addressing their challenges from the industry. Our works include performing market analysis, analyzing business performance, visualizing business strategies, formulating financial projection and preparing pitch decks to potential investors.

FINANCIAL MODELLING

AVISTA devises and implements customized solutions for our clients' most challenging and critical issues. Our team has extensive experience in developing financial model to assist the management for better in-house budgeting and financial management. Our services include assisting companies in developing or reviewing their financial models; conducting scenario analysis on the financial impacts with various Key Performance Indicators ("KPIs") or under various situations to streamline the business objectives; performing assessment on the value or synergy created from the potential acquisitions for decision making; developing a financial roadmap to guide and monitor the achievement of your short-and long-term financial objectives.

Property Consultancy

AVISTA aims to provide our clients with a collective but comprehensive idea to assist them to make the right decision on how to fully utilize the value of the assets and structure the plan and strategy.

DUE DILIGENCE IN REAL ESTATE TRANSACTION

During an acquisition or sales process, due diligence provides insights into the risks involved in property acquisition. AVISTA is capable to assist the company to identify the property title, land tenure and property market research.

scope of analysis, such as cost-benefit analysis, budgeting analysis and scenario analysis, we can derive suggestions and guidance on potential property development.

FEASIBILITY STUDY

AVISTA professional research team provides an objective, comprehensive and prescient feasibility study to assist management to make the best investment and future development decision. Through a wide range of

PROJECT MANAGEMENT

Combining the advantages of AVISTA multidisciplinary teams, we are capable to provide one-stop comprehensive real estate project management services for achieving an effective and efficient use of capital. This edge also allows us to represent our clients to take part in the negotiation with other stakeholders, especially during acquisition transaction in redevelopment projects and urban renewal, in order to maximize the returns of properties.
